# SAVE ADAP!

Dear Senator Kohl,

AIDS Drug Assistance Programs (ADAP) are state- and federally-funded programs that provide medications to more than 166,000 low-income HIV patients, including more than 1,200 in Wisconsin. Many ADAPs have been forced to start waiting lists or enact barriers to accessing their program.

**The situation is dire and without immediate additional funding it will only get worse. Acting now will ensure more states, including Wisconsin, avoid this perilous situation.**

Please support all efforts to increase funding to ADAP in order to help all people with HIV/AIDS live a long and healthy life.
